"Johnnie motivates employees to advance and improve constantly. Our customers love to meet with Johnnie when they visit and our management is confident they do not have to worry about the quality direction of the organization."

- Laurie Sivik

Johnnie has served as the Quality and Training Manager since April, 2005, joining Streamline Technical Services after retiring from military service. He received numerous federal and state awards for his efforts in organizational performance improvement. His military assignments included Special Projects Manager for the 136th Regiment, Battalion Operations NCO, Course Manager, and Senior Instructor/Writer among others. Johnnie has also served as an examiner and team leader with the University of Texas Center for Performance Excellence, and is a member of the American Society for Quality.

His major accomplishments at STS include development of an ISO 14001-based Environmental Management System, an OHSAS 18001-oriented Illness and Injury Prevention Program, and improvements in the area of organizational knowledge management. His proactive approach to organizational programs is designed to allow STS to meet or exceed the stringent requirements of multinational corporate partners.
